# All about safety

By SHIRLEY W. WALTON
Extension Agent

This week I wish to share with you ten short questions from the National Safety Council. Please get out a pencil and take this simple quiz. Please answer each question "Yes" or "No".

(1) Do you have emergency numbers (fire, police, Poison Control Center, Rescue Squad) posted at every phone in your home?

(2) Do you keep an emetic in the house to induce vomiting?

(3) Do you know when you should never induce vomiting?

(4) Do you know why it is important to save the container when someone is accidentally poisoned?

(5) Do you keep perfumes, colognes, aftershaves, and cosmetics such as vanilla extract out of reach of children?

(6) Do you read the label when you are buying a household chemical product?

(7) Do you store garage items such as gasoline, paint, and solvents away from pilot lights and other ignition sources?

(8) Do you keep extremely hazardous products like drain cleaners, bleach and ammonia out of reach of children?

(9) Do you discard leftover prescription drugs as soon as you stop taking the medicine?

(10) Do you store poisons such as bug killers in separate cabinets away from food?

Each of your answers should be "yes". The "no" means you have failed the test to provide a safe home. Every additional "no" weakens your home safety program. It is suggested that you spend the next few minutes making your home a safer place in which to live.

Let me remind you of an excellent program to be conducted on May 17, 1984, at 1:30 p.m. and 8:00 p.m. at the District Extension Office Auditorium located next door to the Post Office. Dr. Glen Hetzel, Extension Specialist Safety, will be presenting a program on how to make your farm and home a safer place.

Each of you is invited to attend this program. It is sponsored by VPI Cooperative Extension Service in cooperation with the Southern States Farm & Home Advisory Committee and the Women's Committee of the Farm Bureau.

Excellent free materials and door prizes will be provided to help make your home and farm a safer place.

If you have a homemaking question or problem, you may call 352-5244 or you may write to P. O. Box 488, Appomattox, Va. 24522. Have a good day and a good week!

RECIPE OF THE WEEK

"Betty's Lemon Freeze"

1-13 oz. can evaporated milk, chilled

1 cup sugar

Juice of 3 large, or 4 small lemons

Rind of 1 lemon

Chill large mixing bowl, beaters, and milk in freezer. Whip milk until stiff. Add sugar gradually, then add lemon juice and rind. Continue to whip until thoroughly mixed.

Pour this mixture in a 9 x 13 pan or glass dish which as been lined with graham cracker crumbs or a graham cracker crumb crust. Freeze. Cut into squares and serve. This is delicious, nutritious, and lower in calories than many desserts.

Many thanks to Mrs. Betty Grimm, a homemaker from Concord, Va. for sharing this delicious recipe. She served this at a recent homemaker meeting and it was the hit of the evening.

## ASCS Today

By TOM CONRAD

USDA ANNOUNCES 1984 FLUE-CURED TOBACCO PRICE SUPPORT LEVEL, GRADE SUPPORT RATES - The 1984 crop of flue-cured tobacco will be supported at $1.699 per pound, the same as the 1982 and 1983 support levels as required under current law.

The U.S. Department of Agriculture has issued loan rates for the various grades of eligible 1984-Crop flue-cured tobacco, based on the $1.699 per pound support price. The grade loan rates will be applied against the quotas of the farms on which they were produced.

In addition, loan rates will be discounted 10 percent for any grade of supported primings which contain more dirt or sand than normal. Tobacco containing excessive sand or dirt will be graded NO-G, no grade.

We have copies of schedules at the ASCS office.

## DMV license office to close

The Division of Motor Vehicles license agency on Court Street in Appomattox will be closed all day on Thursday, May 17, according to Nelwyn Morris, license agent.

The office will be open for business during regular hours on Friday, May 18.

Bill Totten

## Bill Totten joins Strout

Capt. William "Bill" Totten, a native of Long Island, N.Y., has joined the Appomattox Strout Realty office as sales representative and advertising manager.

Totten, who moved to Virginia in January from Florida, is a licensed boat captain, licensed coal miner, and spent four years in the U.S. Navy as a helicopter mechanic.

In Florida, he was owner and operator of several seagoing sport and commercial vessels.

Totten, 43, says he is "looking forward to concentrating on real estate sales in this area, and to working with the fine people of Appomattox County."

## APS kids get lesson

More than 180 students in the Appomattox Primary School kindergarten classes viewed the presentation given by the Appomattox Senior FFA Chapter entitled "Food For America".

"Food For America" is a nationwide project of FFA that is aimed at kindergarten through third grade students. The purpose is to familiarize students with how food gets from the farm to the store. FFA members throughout the United States and Puerto Rico are involved in the national program.

A film was shown by Cathyrn Ballowe, Lynn Padgett and Lisa Coleman to the kindergarten students. The purpose of the film was to educate the consumer about the origin of foods and to develop an appreciation for their friends, the farmers.

The program also consisted of a classroom demonstration and presenting students with Food For America coloring books. The use of a cheeseburger held the student's attention as FFA members explained how each part of the cheeseburger came from the farm. Following the film show and demonstration, the FFA members fielded questions about agriculture and how food gets from the farm to the table.

## Britton completes rescue course

W.R. Britton, Jr., emergency services coordinator for Appomattox, successfully completed a Swiftwater Rescue Course held at Pocahontas State Park in Chesterfield County, May 11, 12, and 13.

Britton was one of 21 public safety personnel trained in the first water rescue program offered in the State of Virginia, which was the first multi-agency training of fire, rescue, police and other emergency responders. He will receive a certificate and be certified as a swiftwater instructor once he has conducted four seperate swiftwater courses successfully.

The course was offered through the Training Office of the Office of Emergency and Energy Services (OEES), and the efforts of William R. Britton, Jr., Emergency Services Coordinator for Appomattox County, and Cris Leonard, safety committee member of the American Canoe Association.

The course was designed to provide the candidate with the necessary knowledge and skills to successfully teach the swiftwater rescue course within his own locality, and concluded with actual in and on water training.

The Swiftwater Rescue Course for Instructors was taught by the California based Rescue 3, an affiliate of International Rescue Systems, Sonora, California.

Over 8,500 persons drowned in the United States in 1983. It is estimated that in 1984, countless swiftwater rescues will be attempted not only on our rivers, and during floods, but in irrigation canals, storm drains, sewers or anywhere that water is running down a gradient. Rescuers in the attempt, will be subjecting themselves to danger, injury or even death.

A second course is being offered May 18, 19, and 20, 1984, at the same location in the basics of swiftwater dynamics, rescue safety, and survival in swiftwater, and the basic procedures for effecting a rescue from a swiftwater environment. The second course is already filled up.

Responders trained and yet to be trained include fire, volunteer rescue, police and sheriff personnel, National Park Service, recreational boaters, and other volunteer water rescue responders.

A LUNCHEON honoring 45 volunteers and room mothers was held at Appomattox Primary School last Wednesday. Sara Cuccia, parent volunteer coordinator, was hostess. Each tablecloth was carefully decorated with some form of artwork by kindergarten children. Poems and heart-shaped magnets were shared as an expression of thanks to volunteers.

## Letterman wins engine competition

Mark Letterman, representing the Appomattox Senior Chapter FFA, placed first in both the Hub Federation and Southside Area Small Engines Contests held recently.

This is the third consecutive year that Mark has participated in the contest and won both the federation and area contests. He will now represent the Southside Area in the state contest held during the State Fair.

Mark placed first over contestants from Amherst and Rustburg to win the Hub Federation contest on May 3rd and defeat contestants from five other federations to win the Southside Area contest on May 10th at Halifax Senior High School.

The small engines contest tests students knowledge of small engine operation and repairs with a written test and a practical problem. The area plaque for this contest is sponsored by the Appomattox FFA Alumni Association.

## Area students get degrees

Three students from the Appomattox area received advanced degrees at Lynchburg College May 12.

David M. Zimmerman, of Route 2, received a master of administration degree in personnel management.

Glen Marshall Eagle, of Route 3, Rustburg, received a master of education degree in agency counseling.

Mrs. Penelope Mundy Saley, formerly of Appomattox, also received the master of education degree in agency counseling. She formerly lived at Route 4, Appomattox. She also holds a B.A. degree in education, and a master of education degree in learning disabilities from Lynchburg College.

## Tractor team wins contest

The Appomattox Senior FFA tractor troubleshooting team took first place in the Southside Area contest at the Appomattox County High School, May 8. Team members are Jeff Beane and Randy Phelps.

The Randolph-Henry FFA team was runner-up. The Randolph-Henry team is composed of Dexter Franklin and Mike Tharpe. Third place went to the Halifax Senior team - Melvin Waller and Douglas Compton.

Tractor troubleshooting is a FFA activity designed to increase proficiency in correcting tractor malfunctions. The teams are required to adjust and repair tractors which judges have intentionally put out of adjustment.

Jesse Morgan, instructor of agricultural education, Appomattox County High Sool, helped to coordinate the contest. The winning Appomattox team will represent Southside Area in the state contest in Richmond in September.

## For regional development

# Corporation forms

Representatives of five cities and counties within the Central Virginia Planning District will execute a charter agreement on Thursday, May 17, 1984, that will create the Central Virginia Economic Development Corporation.

The Central Virginia Economic Development Corporation will be on a non-profit organization to help small businesses obtain fixed asset financing needed for job-creating expansion. The financing vehicle for the Corporation is the Section 503 loan program sponsored by the Small Business Administration.

SBA's 503 loan program is a joint partnership between the SBA, local financial institution, and the applicant seeking the loan. SBA will provide a 100 percent guaranteed debenture for 40 percent of the loan, the local financial institution will provide 50 percent of the loan, and the applicant will contribute 10 percent in equity.

The five local government representatives, who will meet at 10 a.m. in the conference room of the Central Virginia Planning District Commission, include Stanley Harris of Amherst County, Samuel R. Lawson of Appomattox County, Walter Viohl of Campbell County, E. Allen Culverhouse of the City of Lynchburg and Jack Gross of Bedford City.

Andy Keller, SBA's Certified Development Corporation Coordinator for the State of Virginia, will provide an insight in the value of the Central Virginia Economic Development Corporation in stimulating job expansion in Central Virginia.

## Peers tutor at AES

Appomattox Elementary School has implemented a peer tutoring program between two classes this year.

Mrs. Dorinda Saxton's class, special education, and Miss Krufka's sixth grade class are jointly maintaining the program. Sixth-grade students go to the special education class twice a week for 25 minutes to tutor a student. The sixth grader helps the special student with activities such as color identification, the alphabet, counting and fine motor skills.

Integral to the program is the friendship that develops between the two students. The sixth grader also serves as a peer model and aids the special student in learning good socialization skills.

The program is reciprocal in that the peer tutor gains an awareness and sensitivity to handicapped individuals.

## Locals to be jailed June 1

Prominent local citizens will be jailed to benefit the American Heart Association, Appomattox Unit on Friday, June 1 in a special fund-raising event called the Cardiac Arrest.

Each person who is to be arrested has agreed to post bail which is raised by contacting friends and associates prior to and during the event, according to event chairman, Dr. Richard Poe. Among those who have volunteered to be arrested are: Ronnie Spiggle, Tommy Moore, Jim Pugh, Franklin Vaughan and Patrick Harrison.

The Cardiac Police will serve warrants on individuals the day of the event and bring them to a special "jail". There, they will be arraigned on a variety of unhealthy charges and will be required to post their complete bail before being released.

The event is being sponsored by the Appomattox Unit of the American Heart Association. Money raised will go to support the American Heart Association's programs of research, education and community service in Virginia.

"This will be the primary fund-raiser for the Appomattox Unit, so please contribute to the bail of your favorite "cardiac crimmnal," said Dr. Poe.

Anyone interested in participating in the event may call Dr. Richard Poe at 352-2301.

## AARP plans meeting

The Pamplin Chapter #2295 of American Association of Retired Persons will hold their regular monthly meeting at noon Tuesday, May 22, in the friendship hall of the Pamplin United Methodist Church.

There will be a pot luck luncheon, after which will be a short meeting, then our guest speaker will be Mr. Frank W. Huppert, who is assistant State Director of the organization.

## Assembly says thanks

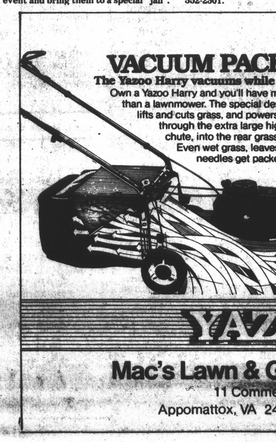
VACUUM PACKED.

The Yazoo Harry vacuums while it mows.

Own a Yazoo Harry and you'll have much more than a lawnmower. The special design blade lifts and cuts grass, and powers clippings through the extra large high volume chute, into the rear grass collector. Even wet grass, leaves and pine needles get packed without clogging.



The collector can be removed, emptied and replaced in seconds, with no tools required. With the collector off, the Harry's deflector drops automatically into place, providing ample space for cut grass to be channeled safely toward the ground. The collector is tucked out of the way in the back so it doesn't create side obstructions.

Other features that make Harry your best mower value are the Briggs & Stratton 4-cycle engine; the rustproof aluminum deck that's thicker than most; and extra life ball bearings in all four wheels that give the Harry easy rolling for a long time. See your Yazoo dealer for a hands-on demonstration of the Yazoo Harry today.
